EDUCATION

Charusat University

B.Tech in Computer Science and Engineering - CGPA - 9.69

Anand, Gujarat

Sep. 2021 – May 2025

Parth School of Science and Competition

Higher Secondary - Percentage - 92

Vadodara, Gujarat

Apr. 2020 – May 2021

EXPERIENCE

Junior Software Engineer

Brilworks Software

March. 2025 – Present

Ahmedabad, Gujarat

- Developed backend services using Java, Spring Boot, Hibernate, and RESTful APIs, following OOP and clean code practices with unit test coverage.
- Built and maintained IoT backend workflows for 15+ FOTA jobs across Bluetooth, WiFi, and Cellular, handling firmware updates and device state validation for multiple device groups.
- Supported 20+ production deployments and hotfixes, configured Jenkins CI/CD pipelines, resolved critical ECR security issues, and improved observability using Sentry and Grafana.

Software Engineer Trainee

MindArray Systems(Motadata)

Aug. 2024 – Dec. 2024

Ahmedabad, Gujarat

- Completed training in Operating Systems, Networking, Core and Advanced Java, Vert.X (reactive programming framework), and ZMQ, achieving 85% proficiency in internal assessments.
- Developed a prototype of a scalable network monitoring system, showcasing core features of the company's product with PostgreSQL as the backend.
- Gained hands-on experience in secure, reactive apps and cross-team collaboration.

PROJECTS

Trackimo – Device Management Platform | *Java, Spring Boot, OAuth2, MySQL, AWS, Jenkins*

- Contributed to Trackimo, a GPS tracking and device management platform for enterprise-grade IoT solutions. Integrated OAuth2 for secure authentication and user session management.
- Optimized filtering by migrating to JPA Specification, cutting query time from 4s → 650ms.
- Supported the development and maintenance of FOTA scripts for seamless updates of UniSoc, Bluetooth, and Wi-Fi firmware.

Network Monitoring System (NMSLite) | *Java, Vert.X, Golang, PostgreSQL, ZMQ*

- Built REST APIs for credential and discovery modules and implemented a Golang-based polling mechanism to fetch device data securely.
- Optimized DB interactions using HashMap caching, cutting GET requests by 67% and boosting performance.
- Transferred polled data via ZMQ to a Go application for processing and stored it as files, ensuring efficient, reliable, and well-documented data management.

Real Estate Platform | *Java, Spring Boot, MySQL, React, JWT*

- Developed a full-stack web application for property buying/selling with user and subscriber roles, using Spring Boot REST APIs and React.
- Implemented secure onboarding with token-based authentication (JWT), role-aware dashboards, and adherence to secure coding standards.

TECHNICAL SKILLS

Languages & Frameworks: Java, Python, C/C++, PHP, Spring Boot, Hibernate, Vert.X, React.js

Database & Cloud: MySQL, PostgreSQL, JDBC, JPA, Hibernate ORM, AWS (EC2, S3, RDS, ECR)

APIs & Integration: REST API, OAuth2, JWT, ZMQ, Postman, Microservices

Tools & DevOps: IntelliJ IDEA, VS Code, Git, Jenkins, Maven, Linux, Version Control

CERTIFICATIONS AND ACHIEVEMENTS

- AWS Certified Solutions Architect – Associate (SAA-C03).
- AWS Certified Cloud Practitioner (CLF-C02) and core team member of AWS Cloud Clubs Charusat.
